## POLICY OF HEARST EXPOSED AT HEARING

NEW YORK AND CHICAGO EDITOR "EARNESTLY DESIRED TO EMPLOY THE INFLUENCE OF THE NATION NOT FOR WAR BUT FOR LASTING PEACE."

### ZIMMERMAN DISCLOSURES DENOUNCED AS FORGERY BY ATTORNEY GENERAL

Ordered Color Flags Removed From Papers After They Had Served a Purpose in Probably Helping in Selling Papers.

WASHINGTON, December 10.—(Associated Press) Government copies of telegrams signed by William Randolph Hearst giving instructions regarding the policy of his newspapers and their correspondents during the war were read into the record at today's hearing of the Senate Committee investigating German propaganda.

In a message to the New York American on February 24, 1917, Mr. Hearst outlined instructions to be cabled to William Bayard Hale, then a Hearst correspondent in Berlin, and who, according to evidence recently produced, was on the German payroll without Hearst's knowledge. Mr. Hearst said he believed a vast majority of the people in America and Germany opposed the United States entering the war, and concluded: "we earnestly desire to employ the influence of our country not for the extension and protraction of the war, but for the promotion of a just and lasting peace."

A message dated March 2 signed "Doctor," and addressed to S. S. Carvalho, New York American, declared that the famous Zimmerman note in which Germany proposed a nalliance with Mexico and Japan and which the Associated Press revealed to the world, probably was a forgery prepared by the Attorney General.

The object of the "forgery" the message said, "was to frighten Congress into giving the President the powers he demanded and perhaps also into passing the espionage bill."

A message dated March 3, 1917, signed "Hearst," and t to Carvalho, said:

"If situation quiets down please remove color flag from first page and little flags on inside pages, reserving these for special occasions of a warlike or patriotic kind. I think they have been good for this week, giving us a very American character and probably helping sell papers, but to continue effective they should be reserved for occasions."

## PITTSBURG BARS OUT THE PORKER

(By Associated Press) Pittsburgh, December 10.—An indefinite embargo was placed on hog shipments to Pittsburgh this afternoon by the railroad administration on request of the Live Stock Exchange and Union Stock Yards. The action was taken because of the large receipts of the last two days which have overstocked the market here.

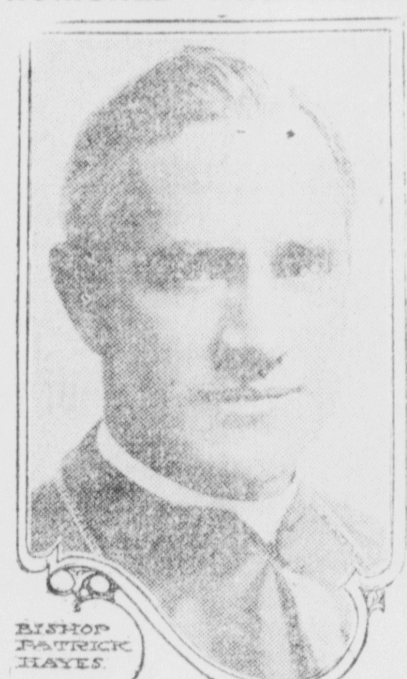

### PRICES FIXED

(By Associated Press) Cleveland, O., December 10.—Local stockyards were notified today by the United States Food Administration, Stabilization and Control Committee at Chicago, that the average price for hogs at Cleveland has been set at \$17.60 instead of the former price of \$17.75.

### CHICAGO TOO

Washington, December 10.—An embargo on hog shipments to the Union Stockyards, Chicago, until Thursday was authorized today by the Railroad Administration.

## RUMORED ARCHBISHOP

The official announcement from Rome of the appointment of the Right Rev. Patrick J. Hayes, Bishop of the Catholic chaplains in the military service of the United States, as Arch-bishop of New York, succeeding the late Cardinal Farley, is expected by many prominent churchmen in New York. Additional grounds for this belief is found in the fact that Bishop Hayes apparently abandoned, without explanation, his arranged trip abroad to perform the duties of his appointment as Bishop of the Catholic chaplains with the armed forces of this country in Europe.

## CAPITAL OF RHEINISH HESSE OCCUPIED BY AMERICANS

CITY OF MAINZ OCCUPIED BY AMERICANS. American troops have occupied Mainz, capital of the Province of Rhinish Hesse and one of the principle fortresses of Germany on the left bank of the Rhine.

## SUPREME COURT SUSTAINS CITY'S LIGHT RATE CLAIM

STATE UTILITIES COMMISSION IS OVERRULED IN DECISION HANDED DOWN BY SUPREME COURT THIS MORNING.

### OLD RATE SEEMS ASSURED PATRONS

COLUMBUS, O., December 10.—(Associated Press) —Washington C. H. is assured of electricity at the old rate by the action of the Supreme Court today in reversing the order of the Public Utilities Commission granting the Washington Gas and Electric Company the schedule of rates filed by it with the commission in January, 1918, and granted by the commission effective May 1, 1918.

The company had previously rendered statements to its customers under the rates fixed by a city ordinance passed in April, 1913, although it had never formally accepted the terms of the ordinance.

In January, 1918 it filed a schedule of rates with the Public Utilities Commission greater than those fixed by the ordinance and these rates were approved by the Commission.

Suit was thereupon brought by the city authorities, asking the action of the Commission be reversed and the Supreme Court today granted the city's request.

City Solicitor Troy Junk, John Logan and former City Solicitor Pope Gregg represented the city of Washington, and Post & Reid represented the Gas and Electric Company.

## AMERICAN PRISONERS ON WAY OUT

(By Associated Press) Berlin, December 9.—Twenty-six hundred American prisoners of war interned at Camp Rastatt left there yesterday and today for Switzerland. Two hundred other Americans who have been scattered in various camps in Germany are leaving Germany by way of Holland and Denmark.

It is expected that the last of the Americans will be out of German camps by the middle of this week.

## INDUSTRIAL MEN IN WAR CABINET WILL GO TO PARIS

(By Associated Press) Washington, December 10.—The industrial members of President Wilson's war cabinet which met at the

White House every Wednesday during this country's participation in the war, will be with the President as a unit in Paris, and act as his advisers at the peace conference on economic, industrial and reconstruction problems in Europe affecting the future peace of the world.

Those who will make up the party to sail upon word from President Wilson are: Bernard M. Baruch, chairman of the War Industries Board; Fuel Administrator Harry A. Garfield; and Vance McCormick, chairman of the War Trade Board.

Edward N. Hurley, chairman of the Shipping Board, and Food Administrator Herbert C. Hoover already are in Europe.

It is understood that some of the cabinet officers who were members of the war cabinet also may go to France later.

## AMERICANS REACH THE RIVER RHINE

(By Associated Press) Washington, December 10.—The American army of occupation marching into Germany has reached the Rhine. General Pershing under date of last night, reported,

## FAMOUS HETMAN

General Skoropadski, the famous Hetman of the Ukraine, who personally visited the former Kaiser at Berlin in reference to the occupation of his country by the German forces has been assassinated, according to a dispatch from Geneva. The dispatch adds that all power in the Ukraine is now in the hands of the Ukrainians. It was through the aid of the German leaders in the Ukraine that General Skoropadski rose to leadership there.

## FOCH MAY GIVE TIME

(By Associated Press) Amsterdam, Monday, December 9.—The Lokal Anzeiger, of Berlin, says it learns from competent sources that Marshal Foch has agreed to postpone the date for the surrender of all German locomotives until February 1st.

## DUTCH GENERAL MET EX-KAISER PRIOR TO FLIGHT

Reception at Holland Border Is Described as a "Mere Comedy."

(By Associated Press) Paris, December 9.—The city council at Spa has documentary evidence proving that a Dutch general came to Spa to meet the former German emperor before his flight into Holland, according to the Matin. It would appear therefore that his reception and that of the Crown Prince and suite at the Dutch frontier was "a mere comedy," the newspaper continues.

## HERR HOHENZOLLERN ATTEMPTS SUICIDE

FOLLOWING FIT OF MENTAL DEPRESSION FORMER KAISER ENDEAVORS TO TAKE HIS LIFE, BUT IS PREVENTED BY ATTENDANT.

### NOW ENGAGED IN WRITING BOOK

Exiled Emperor Also Consults With Experts on International Law Regarding His Status, Presumably

LONDON, December 10.—(Associated Press Cable) —Wm. Hohenzollern, the former German emperor, has attempted to commit suicide following mental depression, according to the Leipzig Tageblatt, which is quoted in a Copenhagen dispatch to the Exchange Telegraph Co.

A member of the former emperor's retinue who prevented Herr Hohenzollern from carrying out his intention received a wound, it is said.

### CONSULTS WITH LAW EXPERTS

LONDON, December 10.—(Associated Press Cable) —Wm. Hohenzollern, the former German emperor, has had several interviews at Amerongen with two German experts on international law, with whom he discussed his personal position, according to an Amsterdam dispatch to the Express. The experts arrived and left Amerongen in a rather mysterious manner.

### WRITING HISTORY OF REIGN

It is understood, according to the dispatch, that Herr Hohenzollern is writing his autobiography and a history of his reign. He will explain his attitude before and during the war, it is said. The book, which will be long, is intended for publication or if its author is tried before an international tribunal, may be read as a part of his defense.

## NOW EMBASSY

(By Associated Press) Lima, Peru, December 9.—Approval of the bill raising the Peruvian legation at Washington to the rank of embassy was given today by the Senate.

## PRINCE HENRY TO PROCLAIM PARTY

(By Associated Press) Paris, December 10.—(Havas)—Prince Henry of Prussia, brother of the former Kaiser, has proclaimed the establishment of a Royalist party in Germany, according to reports from Holland.

## HIS HOGSHIP COMING DOWN PRICE LADDER

(By Associated Press) Chicago, Ill., December 10.—Extensive changes in average prices of hogs at various live stock centers have been undertaken by the United States Food Administration stabilization and control committees.

At a meeting of the committee held here it was announced today that the average price set at Pittsburgh for example, will hereafter be \$17.65, as against \$17.80 which has recently prevailed there.

## OHIO OVER TOP IN THE WAR WORK

(By Associated Press) Columbus, O., December 10.—Ohio went over the top to the amount of \$3,050,000 in the recent United War Work Campaign. Figures announced today by F. W. Ramsey who directed the Ohio campaign, show that Ohio's quota was \$10,650,000 and that \$13,700,000 was raised.

## MARSHALL TO PRESIDE IN CABINET

President Sends Wireless to Vice President to Preside Over Today's Session

(By Associated Press) Washington, December 10.—Vice-President Marshall was asked by President Wilson in a wireless message today to preside at the usual Tuesday cabinet meeting at the White House. Communication between the White House and President Wilson at sea still is limited largely to routine executive business and the number of messages is comparatively small. It was said today that Secretary Tumulty so far had found it necessary to bring only a few matters to the President's personal attention.

### COURTESY ONLY

The Vice-President took the chair when the cabinet assembled later in the day, explaining as he did so that he was acting informally and unofficially out of deference to the desire of the President and of the cabinet members.

Before going to the White House Mr. Marshall had said he had no intention of being drawn into complications.

"There is one thing sure," he added, "I will not become president unless I should be elected or unless somebody dies, and I have no anticipation of either contingency."

So far as anyone here knows a vice-president has never before presided at a cabinet meeting.

# HUNGER MAP OF EUROPE

## ANALYSIS OF THE EUROPEAN FOOD SITUATION—BY HERBERT HOOVER.

THE food problem in Europe today is one of extreme complexity. Of their 420,000,000, practically only three areas—South Russia, Hungary and Denmark, comprising 40,000,000—have sufficient food supplies to last until next harvest without imports. All continental Europe has reduced herds and is consequently short of meats, and especially fats. Something over 200,000,000 of people are now in social disorder. Most of these people live in the cities, which are the centers of anarchistic infection. Arrangements have already been

made by which the big allies, France, England and Italy, will be provisioned. This covers 125,000,000 people. Our first and deepest concern now must be for the little allies, who were under the German yoke. They are the Belgians, Serbians, Rumanians, Greeks, Czechs, Yugo-Slavs and others. There are 75,000,000 people in these groups and they must be helped at once. Must Release Blockade. Our next concern must be to relax blockade measures, as far as possible, in order that neutral states, now all on short rations, should be able

to take care of their people and prevent the growth of anarchy. This is another group of about 40,000,000. There are 50,000,000 people in North Russia, a large part of whom are inaccessible, owing to the breakdown of transportation and through sheer anarchy. Many of these face starvation this winter. They are beyond help. About Enemy People. As to the situation of the enemy people—about 90,000,000—this problem is not one of going to their relief. It is a problem of relaxing the water-tight blockade, which continues

through the armistice, sufficiently so that they may secure for themselves the bare necessities that will give stable government. Unless anarchy can be put down and stability of government can be obtained in these enemy states, there will be nobody to make peace with and nobody to pay the bill to France and Belgium for the fearful destruction that has been done. Justice requires that government be established, able to make amends for wrongs done, and it can not be accomplished through spread of anarchy. Famine is the mother of anarchy.

### INDIANA DOES HER BEST

(By Associated Press)  
Indianapolis, December 10.—Indiana supplied its full quotas of citizens for all of the war's demands. Estimates just made by Harry B. Smith, adjutant general of the state, place the number of Indiana men joining the fighting forces at 120,000. Thousands of women who lived in Indiana entered war work, many going abroad.

### JAP POPULATION INCREASING

Tokio, Dec. 10.—Japan's population is increasing at the rate of 800,000 a year, according to official statistics. Until a few years ago the rate of increase was a little over 500,000 yearly. The population on Nov. 30, 1917, was estimated at 57,998,373. This did not include Korea, Formosa or Saghalien.

### MINORITY LEADER

CHAMP CLARK

Champ Clark, when he retires from the Speaker's chair upon the organization of the next Congress, will take up the reins of the Democratic minority. This was settled, according to a report from Washington, when Representative Kitchin, of North Carolina, announced that he would give up his place as Democratic leader in favor of Speaker Clark.

### GETS LIFE TERM

(By Associated Press)  
Huntington, W. Va., December 10.—When he was sentenced to life imprisonment for the theft of one automobile tire and one inner tube, Robert Bayles fainted in Justice T. N. Taylor's court. This sentence was the only recourse of the trial judge, as it was the third conviction for the prisoner, and he laws of West Virginia provide a life sentence for the third offense. Bayles' previous sentences were for three and 10 years respectively. He was paroled both times and was on parole when last arrested. He is about 40 years of age.

## IMPORTANT WORK INTEREST GROWS

At a very important meeting of the Woman's Committee, C. N. D., Mrs. G. B. Franklin, Probation Officer, presented a fine report of her work which gave to the Woman's Committee a most gratifying insight into the important and the progress of this work.

Mrs. Franklin was in Jeffersonville the last of the week in the interest of the Juvenile Court, investigating four cases and is in New Holland today.

The following epitome of this report is of public interest.

This is the psychological movement in the life of the Woman's Committee of the Council of National Defense. It is the only purely democratic woman's organization in America for every loyal American woman belongs to it. Therefore the problems of reconstruction will be placed before this body and every unit will be expected to battle with its own community problems. There will be a meeting in Columbus, December 17, 18, 19, for social workers of Ohio and many of Ohio's problems of reconstruction will be discussed. Fayette county must not be behind the others in tackling her own part of the work.

The Probation officer's job is the first permanent social footing that has been obtained for the county. It should not fall into a political job—and it never will as long as a woman's big organization stands back of it, ready to help in constructive Juvenile betterment of Fayette Co.

Why should charity be used in working out the Probation system? Because the object of every modern social agency is that of "Prevention." Delinquency generally follows poverty, hunger and physical suffering, so by relieving these three things delinquency is prevented. There is a case right now in our midst of a boy who is almost blind in one eye and who has adenoids to the extent that his sleep is continually disturbed. Is it to be expected that boy will be good in school or any other place?

Any mother would tell how nervous he is and have all kinds of excuses for his irritability and badness. As it is he belongs to a mother who does not realize his true physical condition and has not any money to relieve it, if she did understand it. To make this boy a normal boy, from whom we may expect normal conduct, will take about \$12.50 even at charity rates and I am quite sure the mother has not handled such an amount of money in years.

Judging from the family investigations of the past month it would seem that lack of judgment in spending money is one of the chief causes of suffering. Many families need Friendly Visitor who will help them manage the expenditure of the weekly wage.

A Detention Home where boys and girls can be detained until the Juvenile Court can take action is a great necessity in Fayette County. Children should not be locked up in jails. Such punishment carries with it a stigma that is never outgrown. A Home furnished like a home with a little "h" with a kind, gentle and at the same time firm matron, would be a great asset for Fayette county.

## We Must Be Worthy

We wonder, sometimes when we hear of the suffering and want among other people in other lands and when we read the appeal to be conservative in the use of our food, whether we really appreciate, whether we can really grasp the enormity of woe which has descended upon the people of the newly formed, Slovak nations, upon Poland and upon Russia and Siberia.

News reports tell us that farmers of America who shipped live stock to Chicago last month received thirty-seven millions of dollars for their product.

Here in America, with supplies of every kind more abundant than ever before, with the nation at peace, with prices double what they ever were before in history, with our transportation facilities carrying our product to market, our government the best and most prosperous upon which the sun ever shone, with our churches and schools, our law obedience and devout patriotism, we can scarcely believe it possible that in Russia and Poland this winter hundreds of thousands of human beings will freeze and starve and that, with all our abundance and despite our desire, we are powerless to render any aid, and that other hundreds of thousands of human beings may be saved if we Americans will only be careful not to waste our plenty. We should appreciate how kind Providence has been to America.

If we can realize conditions in Russia and Poland, where only one man of thousands, has raised enough to keep himself and his immediate family from starving and, in the absence of any government at all to protect him, he sits at his doorway, with a gun, to guard his treasure, then we can, in a measure, appreciate our blessings and will enthusiastically renew our pledges to the food conservation commission and do all that we can to assist suffering humanity.

There is more woe in the world today than ever before in its history and America is the most blessed of all the nations of the earth.

With kindly forbearance for those who are suffering, extending the strong hand of aid and comfort, we must prove ourselves worthy of our blessings.

We must rise above the little petty quibbling here at home, realize the big tasks that must be done, forget our own little ambitions and do the great work of humanity.

## The Returning Soldiers

There is a great deal of interest being manifested now as to what can be done for the boys when they come home from the service, either from overseas or from the cantonment camps, in the way of getting them placed in the business and industrial life of the nation.

Most of that interest and activity is wholly generous and patriotic, but of course we may expect that a few selfish individuals will appear and seek to take advantage of conditions and make big profit at the expense of the returning soldier. We may expect the profiteer to appear in a new disguise with the return of peace as he appeared in a new cloak at the beginning of war.

After the civil war the national government created an opportunity for the returning soldiers by opening up for settlement hundreds of thousands of acres of our then vast public domain. In those days Illinois was "out west" and in western Kansas, Iowa and Nebraska, the Dakotas, Colorado and on stretching south and north to the borders and west to the mountains was practically free range open to occupancy—one hundred and sixty acres to each settler.

These vast stretches of rich land were subdued and made to contribute to the needs of civilization and at the same time furnish a home and opportunity for the returning soldier by national law.

Now our vast public domain is gone, but there are millions of acres that can be reclaimed by irrigation projects and other millions of acres that can be obtained by the government for the soldiers by encouraging a denser population in many sections of the south and east.

We have to aid in this work of placing the soldiers, those who want land, not only an abundance of available land, but the farm loan laws which will enable after possibly some amending or supplementing, any soldier to purchase his home and the opportunity to live. At the same time the adoption of a policy encouraging the cultivation of the soil will aid in increasing the supply of farm products.

## POEM FOR TODAY

HEROES ALL.

In that new world which we shall make  
For freedom and for justice's sake,  
When all the hell of war is past  
And we have established peace at last  
When gladness shall go hand in hand  
With victory across the land,  
There will be honor, love and tears  
For those who fought among their  
peers  
And fell—before the heathen guns.  
To save their country for their sons.

And when our war-worn hosts shall come  
Safe from their battles marching home,  
What crowds along the bannered street,  
What frenzied cheers of pride will greet  
Those champions of humanity  
Who fought to keep our manhood free!  
Oh! they shall find where'er they go  
Such peace as only strong men know—  
Those heroes of the grim crusade—  
In that new world that shall be made.

What of the men who cannot see  
Their flag that waves for victory,  
Who cannot follow when the drums  
Proclaim the conquering hero comes?  
The broken men who after war  
Can walk in their old ways no more,  
Who stood to save the mighty day  
And flung their youthful best away?  
How shall their dear gift be repaid  
When this old world has been re-made?

They shall not lose their modest pride  
Nor high ambition cast aside,  
But serving ever they shall stand  
Among the great determined band  
Who dared and still must dare, to save  
The free republic of the brave,  
Such sons shall never know despair,  
Nor be less valiant than they were,  
But front the future unafraid  
In the fair world they will have made!

—Elmer Carman.

## MURPHY THEATRE GENUINE WONDER

The Murphy theatre in Wilmington is an eye opener to all lovers of the beautiful, being the last word in modernness and attractiveness. It was erected by the famous owner of the Chicago Cubs, Charles Murphy, and is operated by his genial brother, Mr. Frank Murphy. The beautiful playhouse was erected at a cost of \$250,000, has a seating capacity of 1200 persons; a stage that will accommodate the settings of any company making Cincinnati or Columbus, and for beauty and convenience is ahead of any theatre of its size in this part of the United States.

Only the highest class of artists were employed in building the big playhouse and every man understood his business thoroughly, with the result that, backed by unlimited funds, the artists did their best and the beauty of their handwork is the admiration of all who enter the Murphy theatre.

The interior decorations surpass any other theatre in the state of Ohio and the elaborateness and beauty never fail to impress the visitors, whether he be from New York City or any other part of America.

Mr. Murphy built the theatre as an indication of esteem for his old home town of Wilmington, and it is a most beautiful monument indeed.

Some idea of the expense of the theatre and equipment may be gleaned when it is known that the main curtain, with a beautiful painting of the "Birth of the Flag" cost \$2000, and that several high priced artists worked several months in producing and finishing the exquisite arch of moulding over the stage. The stage itself is 72 by 72 feet, with a 72 foot lift at back.

From cellar to roof the building is absolutely fireproof. Some good productions are being booked for the winter.

## QUARANTINE OF "FLU" USELESS

Columbus, O., December 10. — At least 40 per cent of the people of the state may be expected to have had Spanish influenza before the malady is under complete control, according to state health authorities, in a statement issued here.

Quarantine regulations in handling the influenza epidemic are virtually useless, because of the fact that the disease is highly contagious in the early stages, when the person afflicted does not know he is really ill.

"The longer the time over which this number of cases can be distributed the less will be the demoralization caused by the outbreak," the statement says.

## PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit. Watch your kidneys.

The kidneys are the most overworked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often turn into deadly Bright's Disease.

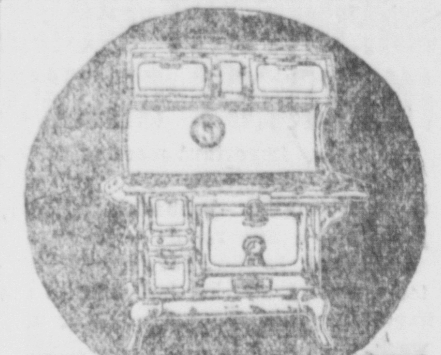

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, high colored or scanty urine, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Go to your druggist immediately. Get a trial box of GOLD MEDAL Haariem Oil Capsules, imported direct from the laboratories in Holland, where they have been in use for over two hundred years. They will give almost immediate relief. If for any cause they should not, your money will be refunded. But be sure to get GOLD MEDAL. None others is genuine. In sealed boxes, three sizes.—Adv.

### News of Interest to Women

It is understood that there is every probability that the colleges, preparatory schools and even the public and private schools will not give the usual number of holidays this Christmas, owing to the enforced play-day which the students all over the country have enjoyed because of the influenza. A few days at Christmas, or perhaps at New Year's, is said to be all that will be allowed this season, owing to the fact that all classes are so far behind in their routine. Few of the authorities will vouchsafe any definite opinion in this matter, which still hangs in the balance, but should it prove to be the case it would rather interfere with any holiday festivities, except those set during the brief period when the college people would be likely to be here.

War has shown that in the future our citizens must not only be good but they must be good for something. Our boys and girls must be trained for useful work, not wasteful leisure. Two important factors contributing to the cause of the world's war and present social chaos have been greed and class ignorance.

The Student Army Training Corps plan has demonstrated some surprising results in intensive training, and out of this has grown a plan for community schools for the development of productive ability and social conscience, advising with students as to life work, instructing through productive work, selling products and placing students in suitable positions.

### RED CROSS ACTIVITIES

Serve, Serve, Serve!

Many inquiries have come to the President of the Ohio Federation as to the work to be done by the club women after the need of Red Cross work is past. Let it be emphasized that the need for Red Cross work is not going to be over for a long time.

There is a tremendous task yet ahead of us in the need for clothing for the refugees, who are daily returning to their devastated homes, and for knitted articles for our soldiers who cannot be returned for many months.

No loyal American woman can conscientiously cease to give of her time until she is honorably discharged from duty, just as our boys are released when their services are no longer needed. That is for our leaders to decide. We must not desert from the splendid army which has stood so nobly back of our brave boys, who have given and been willing to give their lives that the world might be forever free.

### Episcopalians Turn Money Into War Chest.

The women of St. Andrew's Guild have turned over to the Fayette County war chest seventy dollars from the soldiers' book and magazine fund.

The National Library Association has taken over this branch of war work and is fully covering it so the Episcopalians felt that their money could be used to better advantage and to Fayette's credit through the county war chest.

The money was all made by the Guild.

### Red Cross A Factor In "Flu" Fight.

How the American Red Cross, with its ready organization, helped in the fight against the recent epidemic of Spanish influenza, is one of the features of that memorable campaign. Reports from various Red Cross divisions, now in hand, give interesting details concerning the work that was done. Money and personal service alike were made available to meet conditions in localities where help was most needed. At the outset the War Council made a special appropriation of \$575,000, which was placed at the disposal of division managers.

In the army camps and cantonments the Red Cross Department of Military Relief made records in speed and efficiency. The supplies furnished to camp hospitals by the Red Cross in response to emergency calls included bed sheets, towels, masks, wash cloths, handkerchiefs, pillow cases, pajamas, pillows, paper napkins, paper cups, as well as whatever medical supplies were needed. Some chapters worked all day Sunday and others worked at night to turn out these supplies. In one city 2,000 pairs of pajamas were turned out in less than thirty-six hours through the joint cooperation of the local chapter and local manufacturers. In some camps the spacious Red Cross houses were turned into dormitories for the staff of volunteer nurses as well as guest homes to receive the relatives of the sick who had been summoned to their bedside.

Washington Red Cross workers shared in meeting the needs of the camps.

## LONDON CONFIRMS STORY RELATED BY FAYETTE COUNTIAN

An Associated Press dispatch from London, England, confirms the startling disclosures recently made by Wireless Operator Lyon Matthews, Jeffersonville, who told of nightly interception of German wireless code messages from the German wireless station just outside of Mexico City, the messages relating to submarine movements. He was located at San Antonio, Texas at the time.

The dispatch from London intensifies interest in the great work of the wireless operators and intelligence bureau of America. It says:

Allied methods of gaining information about the movements of submarines during the war never will be divulged fully, but the accuracy of the daily reports has proved one of the surprising features of the war here. Very few submarines left their bases unknown to the allied fleet commanders. In addition, the number of the vessels, the duration of their cruises and the locality in which they were ordered to operate were known in nearly every case.

"Such information usually was known within a day of the time the time the submarine left. It was transmitted to allied wireless stations which had means of checking it up to a certain extent. Wireless operators at sea and ashore heard the submarine reporting in code to Germany every night, and their positions were learned by a system of reckoning the wave length. This was done so accurately that the submarine could be definitely located as close as a mile, which is very close in the almost limitless expanse of the sea.

"This assisted the allied anti-submarine patrols. They could keep the Germans on the move by remaining in waters they knew the U-boats were ordered to operate, and did not waste time hunting where it was unlikely the prey was working."

## QUARTET DRAWS FINE AND WORKS

A quartet of dusky train riders, hailing from the sunny southland, faced Judge Allen in Probate court, Tuesday morning, having been picked up by E. & O. detective, Fred Lience, and upon their pleas of guilty to the charges placed against them by the detective, were fined \$25 and the costs and an additional 30 days in the Xenia workhouse.

Assistant Superintendent of Employment Bureau was present and upon the promise of paying transportation of the men to Camp Sherman where they will be placed at work, the fine and sentence was suspended and the men later escorted to the scene of operations at camp.

The men gave names of Alfred Cummins, Wm. Williams, Albert Woods and Henry Campbell.

## JOB OFFERED TO RETURNING TROOPS

The free employment bureau in this district, with headquarters at the court house, has several jobs offered for returning soldiers, and each day a telegram announcing the number of men released and employment in which they will be engaged, is sent to the office in this city.

For Tuesday the men released include five farm hands, one carpenter, one stenographer and one salesman.

Persons having places for returning soldiers are urged to notify the employment bureau, either by phone or letter.

## SUCCESS CROWNS END OF SPECIAL MEETINGS

The special "Eight-day Campaign," conducted by "home forces" which began at the Church of Christ, December 1st, closed Sunday evening with a large audience filling both pews and chairs. Despite the fact of much sickness, splendid interest was manifested.

A large chorus of young people loyally assisted Mr. Groves the pastor in making the meeting a success. During the campaign there were a number of additions the Bible School passed the 200 mark and the interest deepened in the various activities of the church. The congregation is hoping to hold another series of special services in the early part of next spring.

## IN DANGER OF DEATH PENALTY AS PLOTTERS

ABOVE—HERMAN WESSELS.  
BELOW—ALBERT PAUL FRICKE.

Indictments charging treason have been returned by the Federal Grand Jury, in New York, against Herman Wessels (alias Carl Rodiger) and Albert Paul Fricke. The indictment charges that Fricke, from April 6, 1917, to October 29, 1918, concealed and harbored Wessels, alias Rodiger, an alleged German spy. The indictment further alleges that Fricke procured funds from Germany to aid Wessels. The penalty on conviction of the crime charged is death.

## SEARCHING FOR A "Y" SECRETARY

The Board of Directors of the local Y. M. C. A. are searching for a General Secretary and it is expected that within a comparatively short time a suitable man will be found and activities launched in real earnest.

The work of the physical director is hampered by lack of a general secretary on the scene all of the time, and the activities cannot become all that is desired until such a secretary is found.

## BOILER INSTALLED GYM TO BE OPENED

## MRS. MAYNARD IS CALLED TO THE ETERNAL REALM

The passing over into the great majority of Mrs. Keziah Clairissa Maynard, widow of the late Judge H. B. Maynard, at the home of her daughter, Mrs. D. S. Craig, on Monday night although not unexpected, for no hope of ultimate recovery had been offered during the past weeks illness, nevertheless brought to her family and friends deep sadness at the earthly parting of the ways. But for her the rustle of the angel's wings was released from years of semi-invalidness, during which she had been so surrounded by and enveloped in her children's loving care that, with all her frailness, the joy of life had been hers in overflowing measure. A typical gentlewoman of the old school beneath whose exquisite charm and faintness there lived a warm and sympathetic interest for her friends, and whose well developed humor, of a distinctive delicacy all her own, made her society a thing of double enjoyment.

enjoyment, Mrs. Maynard's memory will be long revered in the community with which both she and her ancestors had been from its earliest days associated.

She was one of the Crusaders in Especially was Mrs. Maynard interested in the Temperance movement. She was one of the Crusaders, in Washington's notable temperance crusade and continued active in W. C. T. U. work as far as health permitted. Of Virginia and North Carolina's ancestry, Mrs. Maynard's family had been identified with Fayette's early development. The daughter of Harvey and Ann Milikan Blakemore, she was born March 6, 1836, on a farm near Culpepper, then quite an active settlement. Her grandfather, Jesse Milikan, was one of the first settlers of the county, the first Post Master of Washington C. H., and the first clerk of both Supreme and Common Pleas Courts of Fayette. Her father was Sheriff of the county at the time of her marriage to the late Judge Horatio Bordwell Maynard, who came to Ohio in 1854, beginning the practice of his profession, the law, after a brief service in charge of the public schools. His future wife was one of his pupils.

To this happy union were born eight children, Cleora, who died in infancy, Herbert B., of Waterloo, Ia., John P., of Columbus, Mary Hitchcock (Mrs. H. B. Dahl) Walter E., Nina, (Mrs. D. S. Craig) Horatio B., of Washington C. H., and Augustus P., of Wooster, Ohio. There are eighteen grandchildren and two great grandchildren, Mr. W. D. Blakemore of this city, a brother, is the only surviving member of her own immediate family. All of the seven living children are here to attend the funeral services, which will be held Wednesday at 2 p. m. at the home of her daughter, Mrs. D. S. Craig. Burial will be made in the family lot of the Washington cemetery.

Friends will kindly omit flowers.

## MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients.

They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size \$2.50.

## DR. C. E. PAGE ILL WITH INDIGESTION

Dr. C. E. Page, widely known dentist of this city, is in the Fayette hospital recovering from a serious attack believed to have been due to acute indigestion, which nearly resulted in his death Monday night, but from which he has rallied and is now recovering slowly.

Dr. Page was in the Campbell cigar store and billiard room when he suffered the attack Monday night, and immediately lapsed into unconsciousness. He was hurried to the Fayette hospital nearby and physicians summoned to care for him. He was very weak and in an unconscious state throughout the night, becoming rational early Tuesday morning and giving indications of a speedy recovery.

The attack is presumed to be a result of a recent serious attack of the influenza which left Dr. Page very weak.

## SELLS BABIES TO THE YANKS

Paris, December 9.—(By Associated Press)—“Selling babies to soldiers” is Murray G. Sawyer’s characterization of his activities as a Red Triangle man with the American Expeditionary Forces. Mr. Sawyer comes from Minneapolis, Minn.

“Horrible, isn’t it but true?” he said to a friend who met him in a French village and asked what he was doing. “My particular outfit of men have sold ten babies in the last ten days and we expect to sell a hundred more within the next two months. Why, it’s the greatest business in France today—this selling of babies to soldiers.”

“We have been working with a bunch of men up pretty close to the front lately, and when pay day comes around there’s nothing much to do with their money. So we Y. M. C. A. men began to figure out something to offset that.”

“There are 59 men in a platoon, and we suggested that platoon should adopt a baby on pay day. It costs 500 francs to take care of a baby for a year, and that meant that all but nine men in a platoon should pay five francs each on the first installment, and five francs each on the following pay day. Making a payment each time of 250 francs, or the 500 in all. Each platoon elects a leader who acts as a go-between, for the babies are bought through the Baby Department of the Stars and Stripes. On the payment of the second and final installment, the leader gets seven pictures of the child in various poses.

“It will be possible for one platoon to take up six babies a year, for it would mean about a dollar for each man on pay day, which comes around about twice in two months.

“One man said to me the other day, ‘Gee, Sawyer, this baby business is great. Who wouldn’t rather have a baby than a jag?’”

“And that’s the way we Y. M. C. A. men have figured it out. We have sold ten babies in ten days, and we are going to place one hundred right in our Division before next pay day rolls around.”

## THAD McLEAN OIL CO. MAKES PROGRESS

Messrs. Thad McLean, of New Holland, and Miller Mintern, of this city, returned from Beaumont, Texas, Monday evening, where they have been for some weeks in the interests of the Thad McLean Oil Company.

The two men report good progress, the company having sunk eleven wells and being engaged on two additional wells which will be finished within a short time. Five of the eleven wells are producers and the total production per day is given as in excess of 200 barrels.

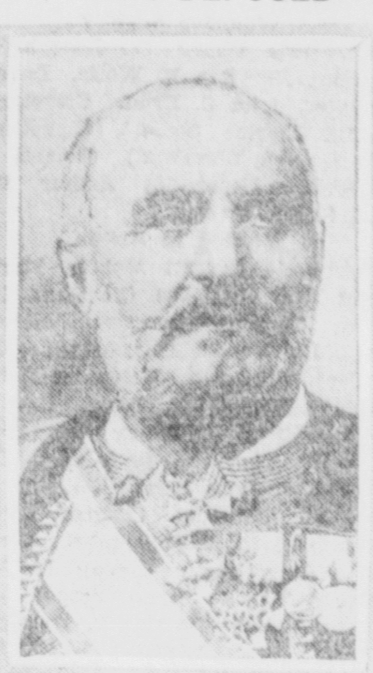

Prospects of the company are very bright, it is announced by Mr. Mintern.

## KING DEPOSED

KING NICHOLAS

King Nicholas of Montenegro has been deposed by the Skupstchina, the Montenegrin National Assembly, according to a dispatch from Prague via London. The dispatch said that the Skupstchina voted the deposition and declared for a union of Montenegro with Serbia under King Peter. The family of King Nicholas was included in the deposition.

## FARM NOTES

### WARM FALL MADE BERRIES BEAR AND SHRUBS BLOOM

Due to the warm fall, lilacs have been blooming in Cleveland, and spirea and weigella in Columbus and other points in central Ohio. A few blackberries have been bearing. Owing to this development of the tenderer plants some fear is expressed that they will not be hardy enough to stand the winter.

In the case of shrubs like the lilacs, weigella and spirea nothing can be done, and the blooms next season may be cut short, says Professor A. C. Hottes, floriculturist of the College of Agriculture. As blackberries are ordinarily pruned in the spring, no harm has been done to them.

A mound of earth about the roots of the roses will help protect them from winter injury, says Professor Hottes.

Roses may be saved from further injury by wrapping paper or burlap about the tenderer parts, which is to keep them from the sunlight rather than to protect them from the cold. The sunlight, which helps to develop the tenderer parts, makes them easily susceptible to injury. It may be desirable to tie the bush to a stake. The tops of all the climbers and finer sorts of roses may be tied together and buried. Any unusually long growths may be cut back one-third. Incidentally the portion cut off may be utilized to produce slips if they are cut from 6 to eight inch lengths. Take as the base of the slip one of the eyes or buds through which the cut was made. Be sure to cut the top just above another eye. The slips may be completely buried in sand in the cellar or on a well drained knoll, and be planted in the spring. Slips of grapes may be made in a similar way.

Strawberries should be protected immediately by a covering of four inches of straw, being careful not to smother the plants. The ground for bulbs should always be frozen before a mulch is applied.

Chicken pie supper, Dec. 14th, at K. P. Hall, under auspices of Willing Workers, McNair Memorial Church. Serving will begin at 4:30, price 45c.

## FRANCE TURNS TO REBUILDING

(By Associated Press)

Philadelphia, December 9.—To reconstruct the destroyed portions of France architecturally as they were before they were ruined by the Germans is the purpose of the French government as outlined by Bernard J. Shoninger, formerly president of the American Chamber of Commerce in Paris.

The French government plans to accomplish this by reimbursing individuals for their shattered homes, mills and factories according to their value before their destruction. Mr. Shoninger recently told the executive committee of the Philadelphia Chamber of Commerce.

Ultimately, he said, Germany will pay the bill for restoration.

Throughout the war, he added, French boards of appraisers have been estimating the values of property destroyed by the Huns and now have accurate data. To those who desire to rebuild, the French government will issue indemnity bonds up to 80 per cent of the former value of his property. While the external appearance of the buildings rebuilt will be retained, Mr. Shoninger said the interiors will be constructed in modern, sanitary style.

Referring to the fact that the French government has made arrangements to purchase materials for reconstruction by pooling or combining its orders, he suggested that American manufacturers would be asked to supply some materials and that they promote the formation of selling combinations so that possible huge orders for construction materials from France could be rapidly assimilated.

## ECCENTRIC SAGE SUCCEUMS TO FLU

One of the most eccentric characters in Green county, and of whom much has been heard in this county, is dead. He was John Bryan, self-styled “Sage of Riverside and millionaire author,” of Yellow Springs, owner of the well known “Riverside Farm and Park,” and of Neff park. He is the man who paid hundreds of dollars to air his eccentric views by buying space in the Enquirer from time to time.

While very wealthy it is believed that he was not a millionaire, although he had made much money through the manufacture of soap, the plant being located in Cincinnati. He passed away in a Cincinnati hotel, as result of the influenza.

He first went to Yellow Springs about 25 years ago when he bought the 700 acre farm bordering the village, which he named “Riverside.”

There he built a fine home, and what he intended to be the largest barn in the world. The immense structure has brought many curiosity seekers to the Bryan place. It was always said that the barn was only exceeded in size and magnificence by that of the former Czar of Russia. Two carloads of slate were used to roof the structure, and ten wagon loads of hay can stand in the barn without being in the least crowded. Riverside Farm is a picturesque spot along the Little Miami. Until recently, horses, and a few cows were the only live stock kept on the place. A year ago he brought several elk to Riverside from Utah, and established them at the farm as the nucleus of a zoological garden. He told friends that he intended to place bear, black fox and antelope on the farm, in time.

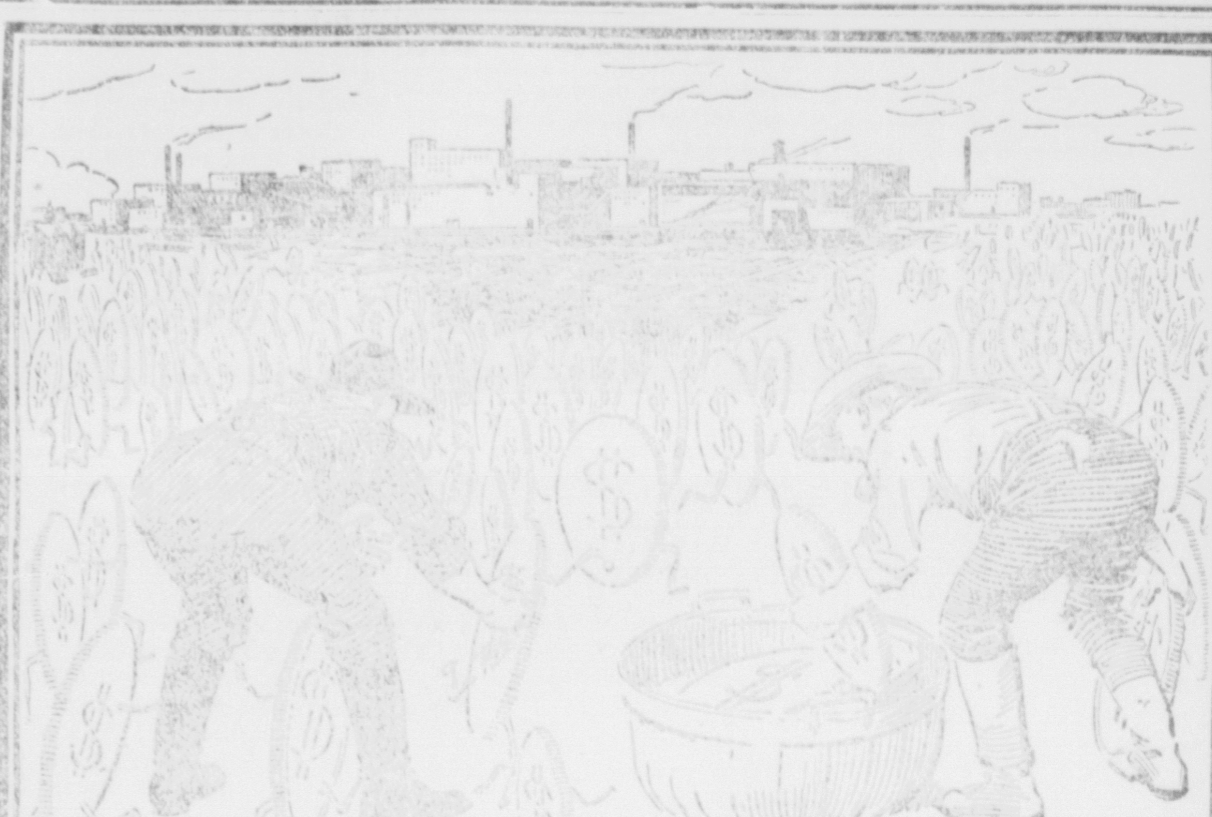

Although he took a dislike to the village and for three years had not set foot within the corporation, he about two years ago, bought and presented to the village for a school site, 15 acres of land where the Old Folks Home, which burned a number of years ago, was situated.

Mr. Bryan was a bachelor until about 12 years ago, when he married Miss Frederica Murphy, a young Cincinnati girl. His widow survives him. Two or three years ago, Mr. Bryan bought the old Neff Park, from Towne Carlisle, and changed the name to Bryan Park. This park, picturesquely situated among the cliffs, consists of 200 acres, and is famous throughout southern Ohio as a picnic spot.

He received his title of “author” because of a book of Fables which he published a number of years ago.

### W. H. M. MEETING

The regular monthly meeting of the Women’s Home Missionary Society will be held on Wednesday, Dec. 11th at 2:30 p. m. in the parlors of Grace church. This is the Thanksgiving offering meeting, and a special program is being prepared by Mrs. Carpenter. All ladies of the home of Mrs. Frank Haines on the Creek road, on Wednesday afternoon at two o’clock. All members who have not responded with the thank offering will please do so at this meeting.

## The Farmer Receives More Than Five Thousand Dollars a Minute From Swift & Company

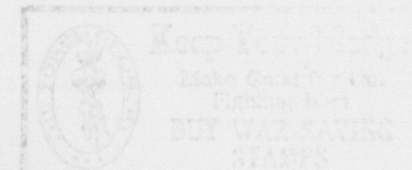

This amount is paid to the farmer for live stock, by Swift & Company alone, during the trading hours of every business day.

All this money is paid to the farmer through the open market in competition with large and small packers, shippers, speculators and dealers.

The farmer, when he sells his stock, receives every cent of this money (\$300,000 on heavy days, \$2,000,000 a day, \$11,500,000 a week) in cash, on the spot, as the stock he has just sold is weighed up.

Some of the money the farmer during a single day comes back to the cash register of Swift & Company. Much does not come back for many days or more. But the next day Swift & Company pay the demands made by its customers, must pay out cash for meat and by-products at the present high price levels based on the \$100 continuously tied up in goods on the way to market and sold to the company.

This gives the farmer the benefit of the Swift & Company business, and the money he receives. Only by doing a large business can the farmer get back his meat and by-products at the lowest prices. He can get a refrigerator car, distribute to his customers, and be recompensed with a profit of 10 per cent. A profit too small to have any real value.

Swift & Company U. S. A.

## YOUNG THIEF IS OUT ON PROBATION

As a result of a visit to Jeffersonville, Monday, County Probation officer Mrs. Franklin, obtained a confession from Carl Harris, twelve-year-old colored lad of that place, to the theft on Saturday night of a pocket-book containing \$15 which was stolen from in front of the colored church in that place.

The boy had purchased a gun and ammunition and was out hunting when the Probation Officer arrived.

Mrs. Franklin visited the store which sold the gun to the boy and brought to the attention of the proprietor the fact that he had violated the law prohibiting the sale of firearms to youths under 17 years of age. Another store where the boy had purchased cartridges was informed of the law which prohibits the sale of ammunition to such youngsters.

After the boy had confessed to the theft he was given a short time to return the \$15 to the woman from whom he had stolen it, and did so, after which he was placed on probation with assurance that the next trouble in which he takes part the penalty will be a trip to the Boys’ Industrial School at Lancaster.

## 30 FAYETTE BOYS LAY DOWN LIVES

Another of Fayette county's brave boys has laid down his life for his country, bringing the total of Fayette county's dead soldiers to 30.

The last victim reported is Chas. A. Lones, a private in M. Company, and son of Frank Lones, formerly of Milledgeville, but who in the past year or so has moved to Sabina.

Young Lones enlisted in M. Company soon after the call for volunteers was made, passed all tests and underwent all hardships with the other members of the famous unit, and was killed in action on November 7th just four days before the signing of the armistice.

The young man's name appeared in the casualties last Friday, but his address was given as "Middleville" instead of Milledgeville.

The young man left a large number of friends in the Milledgeville neighborhood. His death brings deep sadness to all who knew him.

## ASK IMPROVEMENT OF LEWIS PIKE

The county commissioners have been asked by property owners on the Lewis pike for some attention to that road, which has been sadly neglected since the construction of the Dayton road which takes up the bulk of the travel over the Lewis pike.

The road in some places is in very bad shape, it is announced, and as a result of its condition, the county commissioners are expected to take steps which will insure the road being placed in something like passable condition at all times, as it serves a large section of territory north of this city.

Assistance on the Sabina and Green field pike also has been asked of the commissioners.

## WORK IS HALTED BY STEADY RAIN

Much of the farm work was halted for the time being Monday as a result of the downpour of rain which turned farm lands into a sea of mud and stopped corn husking and similar work requiring exposure to the weather.

However the weather has been so favorable to corn husking and other work and the farmers are so far advanced with their work that they make no complaint over the rainy weather.

Fresh ink shipment with paste and mucilage for home and office use just received at Rodecker's News Stand.
